BULLETIN No. 12 / 2012

RISK ASSESSMENT FOR MICRO: standardized procedures.

MINISTERIAL DECREE OF 30 NOVEMBER 2012 - PUBLISHED IN THE OFFICIAL GAZETTE
285 of 6 December 2012.

With the Ministerial Decree of 30 November 2012 have been implemented standardized procedures for conducting the risk assessment referred to in Article .29, paragraph 5, of Legislative Decree 9 April 2008, 81, as amended, pursuant to Art. 6, paragraph 8, letter f) of that decree. The document, approved by the Advisory Committee, shall identify the model of reference for conducting the risk assessment on the part of employers, according to art. 29, paragraph 5, of Legislative Decree no. n.81/2008, in order to identify appropriate prevention and protection and elaborating a plan of measures to ensure the improvement of the level of health and safety. There remains some question of interpretation on the term of validity of self and the beginning of the obligation to use standardized procedures between December 31, 2012 and the entry into force of the decree. However, we can reasonably say that the end of the possibility of using the instrument of self in the writing of the DVR is the end of 2012. Those who have used this methodology must provide to replace it with a document that reflects-at least-as indicated in the Decree. The Studio Dr. Ing. Leonardo Bonini is available for the necessary assessments of the documentation in your possession.
