

Dr. Ing. Leonardo Bonini INGENGERIA della SICUREZZA, AMBIENTE e della QUALITA'

BULLETIN No. 4/ 2013

MODIFICATIONS TO THE DECREE OF 81 MATERIAL SAFETY, HEALTH AND FIRE RISK ASSESSMENT DOCUMENT WITH THE DECREE LAW NO 69 OF 21 June 2013 (DECRETO DEL FARE) AND CONVERTED INTO LAW WITH THE LAW OF THE ORDINARY PARLIAMENT August 9, 2013 N. 98.

1. - DUVRI.

Through the Newsletter can tell you the main changes in the field of Occupational Safety, which entered into force on 21 agosto 2013 by changing the D.Lgs.81/08. There are some simplifications with regard to documentation relating to compliance with health and safety at work with regard to the single document risk assessment interference (DUVRI). In this regard, you are representing that cooperation and coordination between client, contractors and subcontractors, in order to prevent interference risk processing (Article 26 of Decree 81/08.), Can be implemented, limited to the sectors of activity low risk of accidents, with the identification of a designated person, in possession of the appropriate requirements, to oversee the activities of cooperation and coordination. However, this "simplification", remains suspended because "the identification of areas of activity at low risk of accidents is entrusted to a decree of the Minister of Labour and Social Policy (in consultation with the Minister of Health, after consulting the Advisory Committee on Standing health and safety at work and after reaching agreement in the State-Regions Conference), on the basis of objective criteria and parameters, derived from the accident rates of INAIL sector. "It is therefore awaits the list of activities identified at low risk.

The Studio Dr. Ing. Leonardo Bonini is available for the necessary assessment.
