BULLETIN No. 9 / 2012

SISTRI: MOTION TO SUSPEND FOR FURTHER INFORMATION.

Corrado Clini, the Minister of Environment has proposed to the Council of Ministers of the suspension SISTRI order to perform the required checks after the opinion of DIGITPA (National Board for the digitization of Public Administration) on the functionality of the system. The SISTRI was to be fully operational from 1 July 2012, after a series of postponements established in 2009. For this reason the Minister has proposed to suspend the provisions of the contract between the Ministry of Environment and SELEX. The suspension period will be necessary to clarify all aspects related to SISTRI, and ultimately decides whether the system works, where it should be modified or replaced, by no later than June 30, 2013. Because in each case is necessary to have an efficient system for tracking waste. We await the decree that formalizes the decision by the government.
